FRIDAY.......................FEBRUARY 29.

Galena and Chicago Railroad.

[From the New-York Herald]

We have alluded several times recently to the want of business tact and knowledge on the part of the managers of the Galena and Chicago Railroad. Every stockholder in this part of the country has felt the truth of our remarks, and we have no doubt a strong movement will be made at the next election to make important changes in the board of management. The principal cause of the neglect and mismanagement of the business of the Galena and Chicago railroad is the fact that the officers of the company are engaged in several other railroads in that region, and cannot devote the proper time and attention to the affairs of the Galena line. Another cause, undoubtedly, is the want of sufficient talent to comprehend the duties of their position. It appears to us that the Galena and Chicago Railroad Company can afford to have a set of officers exclusively devoted to its business. It strikes us that there are men enough in Chicago much more capable of administering its affairs than those now in office, and it is also our impression that the company can afford to pay them salaries sufficient to compensate them for their full time and undivided energies. The Hartford *Times* of the 22d inst., contains an article on this subject, which we give at length, that stockholders in all parts of the country may see what those most intimately acquainted with railroad matters say about the management of the affairs of the Galena and Chicago Railroad Company:

RAILROAD MISMANAGEMENT.

A good deal of complaint has been recently made that the dividends of railroads have fallen short of the just expectations of their stockholders. It is claimed, not without some foundation that as a class, they receive a smaller return from their investments than any other in the community. A part of this unfortunate result is no doubt due to excessive competition, and other causes which admit of no remedy; but another and large portion of it arises from bad management, which does admit of a remedy.

The *Tribune* and some other New York papers are frequently repeating the remark that the Galena and Chicago Railroad is earning twice as large a net income on its capital as the Hartford and New Haven, while its stock is selling for considerably less. The reason is very easily given. It is, that the Hartford and New Haven road is managed with far greater ability and judgment than this western road. Whatever it earns, whether five or fifteen per cent, is honestly divided among its stockholders *in cash* and the public very wisely prefer an investment where they feel sure of receiving the whole of the legitimate profits, to another which, professing to earn twice as much, withholds a large part of it on some flimsy pretext or other, from its rightful owners. The Galena road, last year fairly earned thirty per cent on its capital—not forty-two, as some of the papers have stated—but it paid its stockholders only ten per cent in cash, the balance of the income being seized and diverted to the building of new road, instead of making use of its bonds which were issued for that purpose. If even twenty per cent had been paid in cash, the stock would now have been much higher than any other in the market. Stock dividends are of very doubtful value under any circumstance.

In pursuance of the same false policy, the directors of this road have lately issued a circular to their Eastern stockholders, which is a masterpiece of folly and impudence. While declaring that the earnings will continue on the same enormous scale, it says: "The amount of earnings over and above dividends of ten per cent. in cash, will be divided to the stockholders annually *in the stock* of the company." Now, *the construction account of these roads has been closed* by the completion of its air line to the Mississippi river. The directors of the road therefore *have no business* to divert the net income of the road any farther to construction account, on any pretence, *without express instructions* to that effect from the stockholders.—They have no right to invite Eastern capital into their roads, and then turn round and say: "It is true your road is earning 30 per cent., but 10 per cent. *in cash* is as much as you shall get out of it." The contract made with the subscribers to a railroad enterprise at the time of subscription, is, that they shall receive, not a part, but *the whole* of its fair profits. If any further expenditure is needed for the completion of the Galena line, beyond all question it should be defrayed by the sale of the bonds, which were issued for that special purpose, and which is infinitely *the most economical* policy for the road; because, while only 7 per cent. interest is paid on bonds applied to construction, the interest on *every issue* of stock applied to the same purpose is, in this case, from 25 to 30 per cent. If a road is earning 20 or 30 per cent. it is a great gain to be able to obtain money at 7 or even 8 per cent, in preference to issuing new stock on which 20 or 30 per cent. must be paid.

In 1854 this road earned $7,000 per mile of 186 miles of road; In 1855 it earned $10,000 per mile on 230 miles of road, or as much per mile as the most profitable of the Eastern roads earn on double the cost. This increase per mile in a single year, on so large an addition of road, is entirely without parallel. Owing to the high rates of transportation, its running expenses are not half so great a per centage of its gross receipts as on the best of the Eastern roads, and are claimed by its managers not to exceed thirty per cent. The enormous crops of corn and wheat make a large increase of receipts this year absolutely certain. As it now stands, therefore, this road forms incomparably the most productive road property in this country; but bad management might make it one of the worst. A large majority of this property belongs to Eastern men, who were importuned to place their capital in it, and are not disposed to stand idly by and see it fooled away. At the approaching annual meeting, to be held at Chicago, the necessary measures will be taken to secure a board of directors who will know enough to apply the bonds and net income of the road in a proper manner, and to pay over to the stockholders, not in stock, but in cash, the annual dividends of at least twenty per cent, which unquestionably belong to them. This vital improvement in the management will add very largely to the actual as well as the market value of this remarkable property.

Miscellaneous Items by the Asia.

. . . .The decree has appeared establishing the new order of merit. The order is to be styled the "Victoria Cross," and is to be given only to members of the army or navy who distinguished themselves by individual acts of bravery in face of an enemy. A plain Maltese cross of bronze, with the motto "For Valor," is the decoration of the order, and it is to be bestowed indiscriminately on officers and private men. Beside the decoration, a pension of £10 per annum is attached to the order, with £5 for each additional clasp. The decoration is to be worn suspended on the left breast by a red ribbon for the army and blue for the navy.

. . . .The great metropolitan prisons of Millbank and Pentonville are only half full. This is attributed more to the drain out of the country of young men on the verge of crime to the war, than to any advance in public morals.

. . . .As a commentary on Lord Clarendon's insolence to Mr. Buchanan, a letter from Hamburg, in *Le Nord*, gives an account of the mission of Dr. Rucker, who was sent to London by the three Hanse cities to assure the British Government of the allegation that war material was being exported thence to Russia. Lord Clarendon received the envoy "in a manner so little diplomatic that a parallel is vainly sought in history," while Lord Palmerston cried out in the midst of the explanation, "Why, you Hamburgers are nothing but a set of smugglers!" All this, together with sundry threats made by the two Lords, has grievously wounded the feelings of the citizens of Hamburg.

. . . .Fifteen thousand pounds are already collected for the Nightingale Hospital for training nurses, and Miss Nightingale has chosen as her counsel Lord Ellesmere, Sidney Herbert, Col. . . . .Letters by the India and China mail are to hand. The only noticeable article of news, additional to that published, is that the trial of Mr. Keenan, American Consul at Hong Kong, is postponed on account of the sickness of the Chief Justice.

. . . .A collision occurred in the channel off Folkestone, on Sunday evening, the 2d inst., between the iron screw steamer Mangerton, from Limerick to London, and the Josephine Willis, 1,000 tons, from London for New Zealand, with a valuable cargo and 100 souls on board. The steamer struck the ship amidships and cut her to the water's edge. Twenty-nine of the passengers and crew of the ship got on board the steamer. Some few afterward reached Folkestone in a boat, and reported the ship sunk and about 60 persons drowned.

. . . .Another Arctic expedition is talked of, with the view of searching for the relics of Franklin and his party. On the 26th of May next, eleven years will have elapsed since Franklin sailed from Sheerness.

AMUSING BLUNDERS.—The Paris correspondent of the New York *Tribune* gives an amusing proof of the fact that the European papers do not understand America, a blunder of the Emancipation Belge, congratulating the State of Ohio on having elected a negro governor of the Commonwealth, the Belgian Journal having attached a literal sense to the political designation and nickname of "Black Republican," but the Times is not more accurate, when, seeing in a dispatch an account of some scattering votes on the ballots for Speaker, it seriously speaks of Mr. Scattering as a candidate for the Speakership.

Georgia and Kansas.

[From the National Intelligencer.]

In the House of Representatives of Georgia last week there was under consideration a bill to promote the settlement of the Territories of the United States. It proposes to appropriate fifty thousand dollars to aid companies agreeing to emigrate to and settle in Kansas; fifty dollars per head is to be paid to each destitute emigrant; and the amount to be paid under the bill to be reimbursed to the State Treasury by a special tax on slaves.

During the debate one of the members who opposed the measure, said that, although he would not deny the right of Georgia to aid in this manner the settlement of Kansas, yet he deemed the whole procedure unwise and impolitic, as the South had endorsed the principles of non-intervention. Another member was so zealous in the cause that he offered a substitute "authorizing the Governor to raise one million of dollars by the sale of State bonds, the amount thus raised to be vested in Kansas lands, and to effect which a commissioner be appointed to proceed to Kansas and make the purchase." The substitute was lost. Another believed African slavery to be essential to the preservation of republican principles. Some very sombre pictures of the present and future were presented. One gentleman who opposed the bill was not willing to send from its borders "the very bulwarks and ramparts of the State." "Sir, (said he) the times are gloomy. Empires and kingdoms, and principalities seem about to part in sunder, and the universal heart of man trembles for fear." The discussion was closed by an urgent appeal from a member who was so zealous in the cause as to assert that if his county should object to her share of the tax he would pay it out of his own pocket. "I maintain (he said) that it is our duty to sustain the gallant State of Missouri; she is not fighting her own battles, but the battles of the South and her institutions. Men can be found to go to Cuba; men were found to aid Texas. Shall we of the South behold a sister State bravely contending for our rights, and suffer her to stand in the breach and breast the waves alone unaided and unheard?" The bill, however, was finally rejected by a vote of forty-three to sixty-three.

We have referred to this simply to show the character of the excitement on the subject of Kansas. Georgia is now, probably, one of the most prosperous States in the Union. She is extending her improvements in every direction, and building up manufactories most profitably in her principal cities, and yet she is full of trouble about a distant Territory, and some of her sons refuse to be comforted.

German Papers in America.

To the Editor of the Buffalo Morning Express.

SIR:—You recently copied from the New York *Times* a short paragraph relative to the political position of the German press in the United States. The paragraph referred to should not be allowed to pass without some slight correction.

In the first place allow me to remark that the article in the *Times* was taken from a most perfidious and unscrupulous of all the German and Hunker sheets, viz: the New York *Staats Zeitung*, which never hesitates to utter any number of falsehoods, which may by any chance insure to the benefit of its party. The following table is correct, and before the next Presidential election, may require some important amendment in favor of the Republican party:

	REP.	DEM.
California,	1	1
District of Columbia,		1
Illinois,	8	3
Indiana,	2	2
Iowa,	3	
Kentucky,	1	
Louisiana,	1	1
Maryland,	1	3
Massachusetts,	4	
Michigan,	2	1
Minnesota Territory,	1	
Missouri,	1	4
New York,	5	6
New Jersey,	1	
Ohio,	9	7
Pennsylvania,	12	13
South Carolina,		1
Tennessee,	1	
Texas,	1	3
Virginia,		2
Wisconsin,	3	8
Total,	54	55

This German-American press thus consists of 54 Republican organs, of which 16 are daily, 38 weekly or semi-weekly, and nearly from each daily office is also issued a weekly sheet, and 55 Democratic, 15 daily and 40 weekly. In the northern States are published 48 Republican and 42 Democratic papers, and even in the South you find, in spite of much persecution and many threats, six German Republican papers, which battle boldly and decidedly for freedom. Amongst the German Republicans you find the names of the most esteemed German revolutionists, for instance: Heinzen, Domschke, Esselen, Wittig, Thieme, Roeser, Reventtow, each of whom has more good sense in his little finger than the whole Hunker pack in their heads united.

The *Times* further designates several Democratic papers (and among them the *Democrat* of this city) as neutral. This is also false. It is true that several German Democratic papers take great pains to pass themselves off for neutral, and raise their voices in holy horror over the iniquities of President Pierce, Nebraska swindle, Kansas outrages, etc. You may be sure, however, that they are the first to vote the ticket, the whole ticket, and nothing but the whole ticket. *Nomina sunt odiosa.* The German Republicans call this class of journalists "shoenail-devourers." To the list of the Democratic organs must be added the Roman Catholic press, as the Jesuits, on the principle that "birds of a feather flock together," find themselves most at home in the Democratic fold.

I feel myself called upon to make this short rectification in justice to the German adopted citizens, and I am prepared to correct this list, if a correction shall be demanded by the future.

Your very obedient servant,

JULIUS HOFFMAN,

Editor of the Buffalo *Telegraph*.

AN IMMENSE FISH STORY.—The *National Intelligencer* publishes under the head of "Patent Office—National History—Agriculture—Fishes," an immense fish story. As the *Intelligencer* was never known to perpetrate a pun, and as the *facts* come from the Patent Office, we are, of course, to receive the narrative as entirely indisputable, though some may be inclined to think that coming from the Patent Office means simply that it is the very last invention. We quote:

"Connected with this subject—somewhat remotely it may be—is the experience of Mr. R. L. Pell, of Pellham Farm, near Saugerties, of New York, a gentleman well known as an extensive orchardist, and has sold as the products of his orchard in one year, sixty thousand dollars worth of apples and cider, some of the former being retailed in London at a shilling each. Having prepared a suitable harness, Mr. Pell obtained from the Hudson a live sturgeon some seven feet long, which he harnessed and put into a pond upon his farm, attaching a line and cork afloat to the traces. Whenever he desired to sail about in the pond, which was about a quarter of a mile in circumference, he would go out in a boat, usually containing two persons, and attach the cord to it, when the sturgeon would invariably start off at its utmost speed and make several circuits around the pond, keeping near the shore all the way. It would then suddenly stop, rise to the surface of the water and turn upon its back, thus indicating its exhausted condition. Having seen and conversed with an intelligent and entirely reliable gentleman who had accompanied Mr. Pell on some of these excursions, we can assure the reader that we have no doubt of the practicability and safety of this mode of navigation, especially in shallow waters."

BRANDY FROM COAL.—Brandy distilled from coal is one of the proposed applications of chemical science to support the wants of man, which is just now creating some sensation.—Hitherto brandy has been made indifferently from potatoes, wine, beet root, and other vegetable sources; but from coal—villainous black mineral, *mirabile dictu*. The experiments of Berthelot, which demonstrated the possibility of producing alcohol from common coal have so seized upon the imagination of some French Yankees, that it is seriously proposed to distil alcohol first from coal, and after dilution to give it the color and taste of the best [illegible]. For the information, probably amusement, of your readers, I may state that the *modus operandi* is as follows: Coal gas is first distilled in the ordinary way, and conducted into a receiver.—It contains about eight per cent. of hydrogenous bicarbon in a gaseous state, which is separated therefrom (rather a complicated affair) and introduced into a very close vessel containing sulphuric acid; the vessel is agitated until the acid absorbs the gas. Water is then mixed with it and the whole distilled for alcohol, which is brought over. Good news this for Londonderrys and Lambtons, if the chemical experiment should prove capable of being applied to a manufacturing purpose. Our coal districts transformed into brandy producing countries rivalling with Angouleme itself, will be one of the curiosities of the nineteenth century, although our children may find nothing unusual in asking for a drop of the best old Northumberland, or a glass of Durham water, hot with a slice of lemon, and not too much sugar.—*Mining Journal.*

DREADFUL OCCURRENCE.—About one o'clock yesterday, the boiler in the establishment of Messrs. Huntington & Campbell, exploded with such force as to shake the whole town. Mr. Levi Hall, carpenter, was so terribly mangled and scalded that he is not expected to survive. Mr. George Johnson, engineer, was also seriously injured by the steam and flying fragments, but, we are glad to learn, not so as to endanger his life. Mr. Jacob Nicholson, another employee in the establishment, was slightly wounded. Mr. Johnson was thrown by the explosion forty feet from where he was standing, and when found was perfectly covered with a mass of fragments. Mr. Hall was blown twenty feet from the engine, and when found was covered with bricks and pieces of timber. Mr. Nicholson, though not hurt, has no definite idea how he got out of the timber. The engine is a complete wreck. The engine room and another adjoining, occupied by machinery, were blown to pieces.—*Springfield Register, Feb. 27.*

A DEVOTED WIFE.—It is not often, now-a-days that we hear of the womanly devotion that braves pride and public opinion, and feels, even under the reddened hand of guilt, the beating of a life she loves.

The unhappy wife of the murderer Monroe, who recently met his fate at the hands of a mob, at Charleston, Coles County, addressed a letter to him a short time before his death. It adds another to the record of faithful women:

CHARLESTON, Feb. 12, 1856.

My ever dear Husband: How miserable you must be. My very heart aches for you. I have not given up yet—I still have hope. I am now at Mr. Ball's with Pole and Ma. Pole has been a brother to me and a true friend to you. I intend to make his home my home, wherever that may be—I hope a good way from here—the farther from here the better. *I would rather die tonight,* than to stay here among *my enemies,* for those who are *your* enemies are *mine,* and *your* friends are *my* friends.

As soon as I can make arrangements and get the means, I will leave this town, never to return again. May is well. Farewell, but I hope not forever.

I subscribe myself your true and devoted wife,

NANNIE MONROE.

And proud to own it.

SURGERY IN ILLINOIS.—Mr. Brown of Big Muddy, had his leg crushed by a log, and had all the doctors in Richmond, Clay and Jasper, in attendance. Not a set of surgical instruments could be found—and amputation was imperative. A rusty butcher's-knife and a butcher's saw were obtained—the knife whetted on a brick bat—the saw, rusty and greasy was good enough. The incision was made, and the flesh cut in a professional style—the arteries taken up with a crooked fork, and tied with a basting thread from one of the M. D.'s jackets—the end of the bone was scraped with a case knife to get off the grease and rust left by the saw—the flesh was turned over the end of the bone, and a cotton rag stuck on to the wound with shoemaker's wax. Eight *inches* of common whiskey was put into the patient before the operation commenced, which made him oblivious. This is considered one of the greatest triumphs of the sience of surgery extant, and shows that money expended for instruments is thrown away.—*Olney Rep.*

Freedom in Kansas! Liberty Forever!

The Anti-Nebraska voters of the City of Chicago are requested to meet at

METROPOLITAN HALL,
On Saturday Evening, March 1st, 1856,
At 7 o'clock, to ratify the nomination of
HON. FRANCIS C. SHERMAN,
As the Anti-Slavery Extension Candidate for Mayor.

All who are opposed to the Repeal of the Missouri Compromise—of making Politics a test in our Municipal affairs—and in favor of the election of Mr. Sherman, are invited to be present.

F. A. Hoffmann, J. Y. Scammon,
S. S. Hayes, E. C. Larned,
N. B. Judd, and others,
Will Address the Meeting.

COME ONE! COME ALL!

Dyer on Prohibition.

We, certainly, shall not quarrel with Mr. Dyer for voting for the Prohibitory Liquor Law in June last, but we cannot, now that he is the nominee, actual or probable, of the Liquor Dealers' Association, fail to notice his readiness to abandon cherished principles to serve Mr. Douglas, in whose cause he is working. If he has changed his mind and chooses to make a recantation of his opinions from the time he cast his vote for the Quart Law and no license, down to his vote for Prohibition, we accord him the right to do so without subjecting himself to a cross examination therefor. Those who are assailing him on the streets for his apparent inconsistency, do not take into consideration the absolute necessity which compels and to accept all the aid that is tendered; and they do not remember that there is the strongest probability, that, if he is so ready to change, he will, before six months elapse, be around again on their side.

A Model of Consistency.

In 1826, '27, '28 and '29 Mr. Fillmore was an uncompromising opponent of "secret political societies," and to that opposition he owed his first political elevation. Anti-Masonry made him a member of the Legislature and a member of Congress. He is now a member of a secret political society, and is indebted to it for his recent nomination for President. In 1838 he went to Congress, says the Albany *Journal*, under written Anti-Slavery pledges, and in 1850 became the whitest livered doughface that ever betrayed Freedom, and is now cheek by jowl and on the same ticket with one of the fiercest and most ultra of the Slavery-extentionists—A. J. Donaldson of Tennessee.

During the whole of the warm discussion that followed the introduction of the Nebraska bill, Mr. Fillmore maintained a studious silence; and not one of his friends or one of the journals in his interest, gave an indication of his position. But now he has shed his skin and will crawl out and show himself the colors that his policy once demanded that he should conceal.

What is to be Gained.

What is to be gained by again putting the affairs of this city of Chicago into the hands of the bitter partizans of the Douglas school of politics? We appeal to property-holders who remember the time when the influence of the Irish Democracy was paramount—when every office was filled by specimens of the most "illegant pisantry in the world"—when Irish collectors, Irish St. Commissioners, Irish tax-gatherers, and an Irish police ruled the city, and when it was almost a crime not to be able to speak with a brogue—appeal to these old citizens to say what is to be gained by again handing over the reins into their hands? Are they more competent to take care of Chicago interests than better and worthy men who have not the fortune, good or bad, to be born on the "Gem of the Say!" Will they take better care of the city's funds? Will they take a larger and more liberal view of the improvements that the city needs? Will they administer justice any more impartially? Will they better guard the lives and property that will be entrusted to their charge? Will their financiering lessen taxes? Will their love of common schools, not under the control of their priests, enlarge the opportunities or improve the methods of American education? Will their police be more trustworthy or more efficient? These are questions that come home to every man to answer. Those who desire the re-enactment of the scenes that old citizens well remember will answer, yes! but those who are yet of the opinion that the Irish party was not born booted and spurred to ride over all other men, will reply with a most emphatic No! As you vote, so you answer. See to it, property-holders and citizens of parties, that you do answer at the polls.

The Steamer Pacific.

Intense anxiety is felt throughout the whole country in regard to the missing steamer Pacific. She left Liverpool on the 23d of January, and has not since been seen or heard of. In the mean time, several European vessels have arrived, and they report that the usual track of the westward bound steamers is filled with ice, and that navigation is both difficult and dangerous—facts that give assurance to the desponding that she has met her fate and will be heard of no more. A large class of men familiar with ocean navigation do not abandon the hope that she is somewhere safe, and that the next arrival will bring the joyful intelligence of her presence in some harbor on the western coast of Ireland, where the Atlantic found refuge in 1851, when she was unheard of in this country for a period of 56 days.

Position of the Germans.

The New York Daily *Times* in publishing a list of German Newspapers in the United States, makes the following comments upon the political position of the German population:

"The action of the Republican Convention which assembled at Pittsburgh will, no doubt, have some effect on the future course of the German voters throughout the United States. Delegates representing the German population in many parts of the country were present. In Cincinnati a large mass meeting has been held—able men who have heretofore been the leaders of the German element in the Democratic party have given in their adherance to the Republican party, and are bringing the masses over with them; and one of them, Charles Reemelin was present in Pittsburg as the delegate of the Germans of Hamilton county. In this city, too, we have men, who were the most honored and most persecuted in their *fatherland*, declaring openly for the Republican party. There is Carl Heinzen, who was returned from, we are afraid to say how many districts to the Frankfort Parliament, and who, though adored by the people, was refused admission to that body on account of his being too true a lover of Freedom and who is now urging the same cause, though against other oppressors, in his Pioneer in his new home. There are many more young and able men, and others who have long been used to persecutions, who are found on the Republican side. That their voice will be of influence among their countrymen we do not doubt. There may be those, who from length of residence and long association with the so-called Democratic Party, will cling to the Pro-Slavery cause. But we believe that the majority of our citizens of German birth are now, and if the proper steps are taken ever will be identified with the Free-Soil, Republican party.

But one thing is required to bind the Germans to the Free Soil party by a bond that can never be broken; and that thing is an assurance that they are not joining their fortunes to a body of men who will use their power to reduce them to a condition of *Helotism*, at once disgraceful and degrading. We have believed, and believe still, that the "American" intolerance was not primarily directed against them; but against the predominance of the Irish influence in the political affairs of the country; and that when those who made that intolerance a part of their creed could see the mischief that their absurd dogmas were doing, they would once more range themselves among the advocates of the Jeffersonian theory of character and fitness—the only theory that can be maintained. Indications now everywhere apparent point to the fact that the frenzy, which, by the way, was not provoked wholly without reason, is dying out, and that even the fiercest of the new party are conscious that they were wrong—that a man is a man no matter where born—that as such he is entitled in this country, above all others, to the rights that men enjoy, under the restrictions and limitations that the constitution had imposed.

TUNNELING OR BRIDGING THE NIAGARA.—At a meeting held in Buffalo a few days ago, a committee was appointed to prepare a memorial or bill, to be presented to the Legislature, praying for the passage of an act authorizing the formation of a company for the purpose of constructing a tunnel under, or a bridge over, the Niagara river.

Will Chicago Captains, Mates and Sailors Vote for the Nebraska Sand-Bar Ticket? No!

In calculating their sources of strength, Dyer and his Nebraskal confederates count confidently upon receiving a strong vote from the Lake Captains and their crews now in port.

When we consider that the party to which those candidates belong is the deadly enemy of harbor improvements on the Lakes; that Douglas, their file leader, pretends that it would be unconstitutional for the General Government to remove sand-bars, deepen harbors or repair piers on the Lakes—is not the bare mention of getting votes from that quarter for the Dyer ticket, a gross slander on the seamen of Chicago? Will the gallant Captains and mates who have buffeted the treacherous waves and outrode the storms of our inland seas, cast their suffrages for the candidates of a party which wilfully sacrifices them on shifting sand-bars, and in harborless ports? Will the shipwrecked sailor who narrowly escaped a watery grave, through the want of a safe haven, vote for his enemies? The ghosts of drowned sailors forbid it. Self preservation, forbids it. What claim has that guilty party or any of its office-seekers upon the support of Chicago seamen? None. Those brave tars will tell the stool pigeons of the traitor to seek votes from the navigators of Cape Fear river.

The Nebraska office-seekers must place an exalted estimate on the intelligence and self-respect of the Captains, Mates and sailors, belonging to Chicago, when they calculate on the votes of these men to help elect the Sand-bar ticket. The Border Ruffian, Pro-Slavery principles of that party is too much, but when the sand-bar plank is added, the very idea of sustaining such a party is revolting to seafaring men.

Last fall when we saw scores of vessels stranded and foundering at the mouth of our harbor, the furious waves sweeping over their decks as they lay at the mercy of the storm, destroying their rich cargoes, and their wretched crews clinging for life to the spars and rigging, or washed into the raging billows, while within hailing distance of their wives and friends, and no man able to save or succor them; when we saw brave men venture upon those fierce breakers in a tiny boat to rescue these gallant men or perish in the attempt; when we saw our merchants looking on while the toil of years was going to destruction within their sight; and when we further thought that all this destruction of life and property, this suffering and agony might have been averted, and the vessels, men and cargoes safely brought into port, had a little timely, well-directed government aid been expended to remove the bars, deepen and widen the entrance and improve the piers, which Douglas and his Chicago party friends could have obtained had they used half the effort at Washington which they employed to destroy a solemn national compact for the purpose of forming African slavery upon free territory, from which it had long been excluded; we say, when we saw all these things and thus reflected, we inwardly prayed that they were he and his political confederates who were clinging to the rigging of those stranded vessels instead of the innocent and gallant men who suffered! Not that we desired the Nebraskals to drown, but that they might enjoy a taste of the sweets which others were made to swallow, and in the hope that after enduring the horror of one night on a ship-wrecked vessel at the mouth of the Chicago river, Mr. Douglas and his party chums might experience a change of opinion on the constitutionality of removing sand bars and deepening the harbors of the cities on the great inland American seas.

Barkis is Willin'.

The Buffalo *Commercial Advertiser*, the especial organ of Mr. Fillmore, and the representative of his views upon matters and things in general, and Know-Nothingism in particular, publishes the platform of the Philadelphia Pro-Slavery wing of the Order, with the following comments:

"The platform adopted by the American Council, which we publish in another column, will meet the cordial approbation of a majority of the party. Its moderation, good sense, and patriotism commend it to favorable consideration, and we are sure that if there are any members of the party whose views it does not fully suit, more mature reflection will change their opinions. As was to have been expected, it is denounced by extremists and ultraists, but had it been so constructed as to accord with their sentiments it would not have been the platform of the American, but of some other party. The fact that it displeases ultraists and agitators is one of the best evidences that it is patriotic and judicious. The great objection to it, both on the part of northern and southern fanatics, will be that it does not give greater prominence to the question of slavery. Both the anti-slavery ultraists and the pro slavery ultraists on making a subject the turning point on which the whole politics of the country hinges, which is not mentioned by name, and occupies no prominence by allusion in the Constitution of the country. No objection can be made on this ground to the platform of the American party, which does not apply with equal force to the instrument from which the General Government derives all its powers."

From all this, we take it that "*Barkis is willin*"—that Mr. Fillmore is ready to step up and give in his adhesion to the principles of the Nebraska bill, to endorse the Border Ruffians of Missouri and the general policy of the Slavery-extension party. To the Fugitive Slave Law he is already committed. We may do him injustice but the direction in which his tender starts off, is too significant to be overlooked.

The reason urged by the *Advertiser* for the adoption of the Platform upon which Mr. Fillmore is to stand is worthy of note, or would be if it could be relieved of the contempt which will attach to what is so puerile and absurd.—That Slavery is not named in the Constitution of the United States is the flimsiest of reasons why its aggressions should not be resisted. Murder is not mentioned therein; but not one of Mr. Fillmore's friends would set down upon the demand of a cut-throat, and offer no resistance to the giving up of his life, because the makers of the fundamental law did not denounce murder in good set phrase. They no more contemplated the extension of Slavery over Territory then free than they expected that Congress would legalize man-killing or high-way robbery. And when we are told that the party which has prostituted the Government to the purposes of expanding the area of human bondage, is not to be resisted, or that we are to favor the man who cannot find a warrant for resistance in the Constitution, contempt and pity for him who tells it, are the emotions that must unavoidably come uppermost. But, of such trash are the arguments of our opponents, and we must take them as they come.

EDITORS OF TRIBUNE—GENTS:—The Editor, *pro tem*, of the *Native Citizen* having declined publishing the following, will you give it a place in your paper.

CHICAGO, Feb. 27, 1856.

MR. EDITOR:—I notice with regret the "National Ticket" which you have placed at the head of your paper. I cannot support for office Millard Fillmore, or any man known to favor the *Fugitive Slave Law*, or one whom I fear would even countenance such an act. So far as my nomination as City Treasurer is concerned, I wish to disconnect it with any other question except unqualified opposition to the "infamous Kansas-Nebraska act." I would prefer to be beaten as an Anti-Nebraska man than to be elected in any way which would foster Nebraska strength.

This is the remedy Dr. Fensney, of Chambersburg, Pa., administered with the greatest success to man and beast, that were bitten. He put down the letters as they are formed here, and folded up paper and letters into a pill, with some suitable substance that will make it stick, and then administer it to the person or animal, and it is said where this was administered there was no bad effects.

GRAND BUFFALO HUNT.—The St. Paul *Pioneer* says that a party of gentlemen will start from St. Cloud on the 10th of May, for a buffalo hunt on the plains:

"For an outfit, each person will be required to have a riding horse, shooting equipment, and one blanket, and, for each club of four, commissary supplies, tent, and one pack horse. The commissary organization can be effected at St. Paul or at St. Cloud, after the party assembles, which will be the first day of June, but those who have already joined or may join from the East or South, had better secure, at least, their riding horses or hunting apparatus in Galena or St. Louis."

There will doubtless be about 100 or 150 who will embrace the present occasion to "see the elephant." Applications to J. P. Wilson, of St. Anthony, or H. M. Rice, Delegate at Washington, will enable enquirers to ascertain further particulars.

Lyons Iowa Central Railroad.

MESSRS. EDITORS:—As your city is deeply interested in every Railroad project which may tend to the development of a new country and render it tributary to Chicago, I wish to call the attention of readers to the prospects of the above named Road.

Starting as it does, at the town of Lyons, directly opposite Fulton, the terminus of the Galena Air Line, it will of course for all time to come be one of the best feeders that Road will ever have. It has been surveyed and located as far West as Marion, the County Seat of Linn County, eighty-five miles from the Mississippi River, passing through Maquoketa, in Jackson County, and Anamosa, in Jones County. All who are acquainted with the country which it traverses, will bear testimony to the fact, that no better farming can be found. The route is very favorable for cheap construction, and a considerable part of it is already under contract. There are some miles upon the road, the grading of which will not cost over three hundred dollars, and in no place will there be any heavy work as far as surveyed. The Company are now making arrangements to put the grading of the whole Road as far West as Marion, under contract to be completed the present season, and will have the cars running to that point in twelve to eighteen months. To complete this eighty miles of Road, the Company have a reliable stock subscription of about one million of dollars, leaving unprovided for about $500,000 at the estimated cost. This Company has never sought notoriety by newspaper puffs or otherwise, yet it undoubtedly possesses more real substantial basis for operations than most of the Companies organized in that State. As Chicago is so deeply interested in the building of this road, would not her Capitalists and business men do well to look into the matter and see if they could not afford a little encouragement in the shape of material aid?

From the National Era.

To the People of the Twelfth Congressional District of Ohio:

FELLOW CITIZENS: The long pending contest for the election of Speaker has terminated. Freedom has achieved her first important victory in the House of Representatives of the American Congress. The doctrines of Jefferson, of the fathers of the American Revolution, have been re-established in the citadel of oppression. * * * * *

In the long period of my service here, I have sought neither emolument nor distinction. I have labored for the re-establishment of those principles for which our revolutionary fathers contended. I have lived to see them recognized by a majority of the popular branch of Congress. I regard myself among the most fortunate of public men. I have attained the highest point of my ambition. *I am satisfied.* And I know that you will appreciate my feelings when I express the hope that, at the expiration of my present term of office, I may retire from public life—step aside from the public gaze—return to my humble home—and in the retirement so congenial to my nature, spend the remainder of the life which Heaven has allotted to me; while other and abler statesmen shall carry forward the work so auspiciously commenced, until our Government shall be redeemed and regenerated from the corroding sin of oppression, and the blessings of Heaven shall rest upon a free country.

Monday Afternoon Madison Report.

At the afternoon session, in the Supreme Court, Bashford's counsel objected to the reception of Barstow's plea (the Certificate of election) in bar to the jurisdiction of the Court, for the reason that the Court had already passed upon the subject of jurisdiction. *Second*, because the plea was not verified by affidavit. *Third*, because the respondent had already submitted to jurisdiction by having time extended to him in which to plead. The Court overruled the objections and admitted the plea.

Bashford's counsel then immediately filed a demurrer to the plea. 1st. Because the matters stated are not a legal answer to the information, and do not disclose a want of jurisdiction to proceed farther in the suit. 2nd. Because the question of jurisdiction has been already raised and adjudicated. 3rd Because the defendant does not show that there is another court that can take cognizance of the case. 4th. Because the plea is not verified by affidavit.

To-morrow the time for arguing the demurrer will be set.—*Daily Wisconsin, Feb. 26.*

The Kansas Emeute.

THE LEGISLATURE OF MASSACHUSETTS ON KANSAS AFFAIRS.

The following resolutions were introduced and ordered printed in the Massachusetts Senate, on the 21st inst:

Whereas, The commonwealth of Massachusetts has called in vain through its Legislature upon the State Government of Missouri, and upon the President of the United States, to protect the settlers of the Territory of Kansas against the unparalleled outrages to which they have been repeatedly subjected, and of which they now again stand in eminent peril, which outrages have been heaped upon them by the slave interest in this country, for the purpose of forcing slavery upon Kansas, against the will of its inhabitants and against the wishes of a majority of the people of the Union; and whereas, this reprehensible neglect of the government of the United States and of Missouri has left the inhabitants of Kansas no recourse but to fall back on the original right of self-preservation, and to appeal at the same time to the American people for immediate assistance; therefore

Resolved, That we have heard the cry of distress which has come up to the people of the United States from the settlers of Kansas, with the deepest solicitude and sympathy; that their sufferings have touched our hearts and their manly defence of undoubted rights has won our admiration, and we earnestly recommend to the people of the commonwealth and of the country to initiate some speedy and general movement for the purpose of supplying the necessities of these heroic freemen, and aiding them to maintain their liberties against the ruin which impends over them.

Resolved, That the inhabitants of Kansas are right in their determination not to submit to the code of blood which has been forced upon the Territory by a horde of ruffians from Missouri, calling itself a Legislature, and that the President of the United States, in endorsing those enactments as the true laws of Kansas, and in his recent threat that the settlers shall be made to obey them, even at the point of the bayonet, has exhibited a servility to a sectional slave interest, and an indifference to the fundamental principles of justice and freedom, which merit the deep condemnation of the American people.

Resolved, That this is a fit occasion to re-assert the principles so often declared to be the doctrine of Massachusetts, that Congress has full power to abolish and prohibit Slavery in the Territories of the United States, and that this power should be exercised to its entire extent.

Resolved, That as the intrigues to thrust Slavery upon Kansas have been growing more and more violent and desperate ever since the repeal of the Missouri prohibition, until they have at last made it the paramount question before the country, and driven the whole nation to the verge of civil war, we hold that the speedy admission of Kansas into the Union as a Free State, is a measure of the first importance to the welfare of that Territory, and to the freedom, tranquillity and honor of the United States, and that our Senators and Representatives in Congress be earnestly requested to use every exertion to bring about this result.

Resolved, That his Excellency the Governor be requested to transmit a copy of these resolves to the Governor of each of the States and Territories, and another to the President of the United States.

AID IN NEW YORK.

In Madison county it is proposed to raise a company of one hundred men, each armed with one of Sharpe's rifles, and provided also with implements of agriculture and mechanical tools. They will thus be prepared to make settlements in the Territory, and to defend them; or to first fight for freedom for the whole soil, and then make themselves homes there. Picked men are to be chosen—such as are strong, temperate and of good character. Gerrit Smith lives in Madison county. He offers to do all that is consistent to aid freedom in Kansas, and will furnish such requisites as this company may not be able to obtain otherwise. He has contributed $250, which he sent to the Boston Emigrant Aid Society. On being told that the money had been used to purchase arms, he replied that he was content. Such moral agencies are required in the planting of a free State where slave drivers contend for the mastery with freemen.

SACRED TABLEAUX BY MODEL ARTISTS.—A New Orleans correspondent of the Cincinnati *Gazette*, under date of the 4th of Feb., states that there is something new in the "Crescent City" in the theatrical line,—the doctrines of the Bible represented and enforced on the stage, and the crucifixion of our Savior personated by model artists. The writer adds:

"Monsieur Keller, from Paris, is here with his troupe of 'living statues,' representing at the Gaity Theatre various *tableaux vivants* of sacred and profane history, among which are the Crucifixion, the Descent from the Cross, the Battle of the Amazons, &c. By way of accompaniment, and to give a kind of religious sanctity to the exhibition, Bourcicault, the ever truthful genius, has got up what he calls a Biblical drama, founded on the parable of the Prodigal Son. The thing draws mightily; the theatre has been crowded every night for more than two weeks."

LOANS OF THE ROTHSCHILDS.—During the past year the Rothschilds have loaned over five hundred millions of dollars, as follows: England, $80,000,000; Turkey, $40,000,000; Sardinia, $10,000,000; Austria, $120,000,000; Russia, first loan, $130,000,000; Russia, second loan, $100,000,000; England, on exchequer bills, $35,000,000.

LARGE SALE OF WESTERN BONDS.—We have been shown a letter from New York, dated February 23d, announcing that a financial agent of the Racine and Mississippi Railroad had just sold the bonds of his Company to the amount of $250,000 on advantageous terms, and that he was about closing a bargain for $300,000 more. We congratulate our neighbors of Racine upon the rising prospects of the work in which they are most interested.

Congressional.

WASHINGTON, Feb. 28.

SENATE.—A message was read from the President communicating the official documents on the British enlistment case. 6,000 extra copies were ordered to be printed.

The documents comprise about 500 foolscap pages. The first letter on the subject from Mr. Marcy to Mr. Buchanan bears date June 9th, 1855, and says the President will be much pleased to learn that the British Government has not directed the enlistments, that on the contrary had condemned the conduct of her officers thus engaged, called them to an account and taken immediate measures to put a stop to the proceedings.

Mr. Buchanan communicated these views of the President to Lord Clarendon 13th of July. A letter from Mr. Marcy to Mr. Buchanan of July 15th says, something more than a disavowal is looked for from the British Government, that the latter must not only retrace her steps, but that the President expects Great Britain to take effective measures to discharge from its military service such individuals as were enlisted within the United States, or who left that country under contracts made here to enter as soldiers of the British Army.

A letter from Buchanan to Marcy, July 16th, reports Lord Clarendon as saying that any infringement of the laws of the United States was entirely contrary to the positive instructions of the British Government, and as that Government had determined that all proceedings for further enlistments should terminate. Lord Clarendon thought our Government had no just cause of complaint and that the enlistments were to cease. Lord Clarendon assured Mr. Buchanan that instructions to that effect had already been sent to this country before he received Buchanan's note. Clarendon to Buchanan September 27th complains that the United States violated their neutrality saying that arms and military stores in large quantities were sent from there to Russia and that plots had been openly avowed and compromises entered into causing an insurrection in her majesty's dominion.

Marcy to Buchanan, Sept. 1st. Report of the trial of Hertz, saying the disclosure made thereby leaves no doubt of the facts of the case. Buchanan to Marcy, Oct. 3d, says the enlistment case presents a serious aspect, and remarks that the plots referred to by Lord Clarendon mean the movements of the Irish Emigration Society of Boston, the members of which must be very much astonished at the importance their scheme has elicited from the British government and press.

Buchanan, in a note to which no date is given, assures Marcy he did not entertain the most remote idea that the enlistment question had been satisfactorily adjusted until he learned the complicity of Mr. Crampton in the affair.

Marcy to Buchanan, Oct. 30th, says, the President demands redress.

Lord Clarendon to Mr. Crampton, November 18th, says, her Majesty did not doubt the frank expression of the Regent for any violation of U. S. law, which, contrary to instructions, might take place. Her determination to remove all cause for further complaint by putting an end to all proceedings for enlistment ought satisfactorily to terminate all difference between the two governments.

The information possessed by Her Majesty is imperfect, and direct charges should be made. No offence to the United States was offered or contemplated. The relations of friendship should be maintained uninterrupted. Marcy of Dec. 28th sends Buchanan a very long letter recapitulating the occurrence respecting enlistments, saying of Crampton, his connection with the affair has rendered him an unacceptable representative of Her British Majesty's Government, and you are directed by the President to ask her Brittanic Majesty's Government to recall him. The instructions were similar with regard to the three Consuls.

Mr. Buchanan to Marcy of Jan. 1st, '56 says, he had an interview with Lord Clarendon, and informed his Lordship that he had come for the purpose of reading to him Mr. Marcy's dispatches of Dec. 28th, in reply to the dispatches of his Lordship to Mr. Crampton of the 16th November, as he desired to correct an error, or rather an omission in his (Clarendon's) report of a remark made by Buchanan.

Buchanan then proceeded to explain to Clarendon his ignorance of Crampton's complicity in the recruiting business until the month of September last, and impressed upon him the importance of bearing the fact in mind, in connection with all he had said and done in the premises.

Mr. Mason remarked that on a former occasion he stated it was his impression no such offer had been made, but probably some suggestion of such a character had been thrown out incidentally or unofficially to our Minister. The British government through its official organ, has announced that such an order had been made but not being accepted would be renewed, it was therefore important that the state of the case should be known.

On motion of Mr. Mason, the resolution was adopted requesting the President to inform the Senate whether an offer was made by Great Britain to the Government to arbitrate by means of some friendly power the differences regarding the construction of the Clayton-Bulwer treaty, and to transmit any correspondence containing the proposed arbitrament.

KANSAS.

Mr. Hale denied the truth of the statement of Mr. Toucey, that it was impossible for the President to take another course than he had regarding Kansas affairs without utter abandonment of his constitutionality. Mr. Hale insisted the President had been derelict in his duty in not protecting the bona fide settlers of Kansas in the exercise of their rights.

The condition of things there were such as to justify and demand the President's attention. He proceeded to show by quotations from the speeches of Senators, that those who voted for the Kansas Nebraska bill passed it on the ground that it was a great measure of freedom, and stated that the President's conversation with Jesse Clements, declared a similar sentiment when resistance was made at Boston to the return of a fugitive. The President telegraphed the federal officers to incur any expense necessary to execute the law; but when white men of Kansas were resisted in the exercise of their constitutional rights we were told the President had no authority to interfere.—Was not freedom of suffrage as important as the ownership of a slave? He showed that the Democracy of N. H. in 1847, fourth and ninth districts, declared themselves unalterably opposed to the extension of slavery over territory now free.

Mr. Toombs expressed his concurrence in the policy of the President relative to Kansas, and believed him to be entitled to the support of every friend in the country. He defended the executive earnestly.

The Senate then adjourned.

HOUSE.—Many bills were introduced and referred, and a number of resolutions were adopted, including one introduced by Mr. Florence, instructing the committee on Naval Affairs to enquire into the expediency of making an immediate provision for the construction of ten sloops or other vessels of war. The deficiency in the appropriation bill was being considered, when the House adjourned to Monday.

Washington Rumors.

NEW YORK, Feb. 28.

The Herald's Washington correspondent telegraphs as follows:

I am enabled to assert that the President has determined to dismiss Mr. Crampton immediately, the letter of dismissal being already written, and will be handed to Mr. Crampton probably within the next 24 hours.

Neither the President nor Cabinet suppose there will be war in consequence, nor does any well informed man here, contemplate such a result possible.

Of course Mr. Crampton's dismissal will afford no cause of war.

I learn this evening that some disclosures will shortly be made, showing up the diplomacy of Mr. Marcy and Gen. Pierce on the Central American question.

In the case of Capt. Ritchie, the Court Martial lately held in Philadelphia, found that he used the language charged towards Captain Dupont, and sentenced him to be reprimanded by the Secretary of the Navy, but the Secretary in a letter to Captain Ritchie disapproves of the finding of the Court, so the sentence is rendered null.

Arrival of the Star of the West—Movements of the Filibusters—Annexation of the Mosquito Kingdom to Nicaragua.

NEW YORK, Feb. 28.

The Star of the West has arrived. Walker has annexed the whole Mosquito Territory to Nicaragua.

Col. Kinney has been arrested and sent out of the Territory under guard.

The Star of the West left San Juan on the evening of the 19th, and Key West on the 23d. She brings $350,000 treasure.

A decree was promulgated at the city of Granada, claiming and annexing the whole Mosquito territory as an integral portion of Nicaragua. Shortly afterward a diplomatic corps, headed by Col. Kinney, arrived from San Juan, and had audience of Gen. Walker. On the following day Kinney was placed under arrest and subsequently banished from the territory of Nicaragua, and sent under the charge of Major Martin to the Atlantic seaboard.

Steamer Empire City, from Havana, 23d, arrived this morning. Passed on the 22d sloop of war Cyane.

Later from the Pacific Coast—Great Fight with the Indians.

NEW YORK, Feb. 28.

Advices from Washington Territory, received at San Francisco, on the day of the sailing of the steamer, give particulars of an attack made on the 26th of January, by the Kliketar Indians upon Zaitle in that Territory. For four nights preceding the attack the town had been garrisoned by the officers and crew of the Decatur. At 10 o'clock, A. M., on the 26th, all hands returned to the ship, but in a very short time word was sent that the town was surrounded by Kliketars.

The men were immediately re-landed, and the attack commenced by firing a shot from the howitzer, which was returned by a volley from the entire rear of the town, and the Indians at the same time uttering terrific yells of defiance. The firing was continued until 3 P. M., when finding that the Indians could not be driven from the woods, it was decided to settle the matter in a different way. The women and children were sent on board the Decatur and Brontes. The citizens and mariners were left in charge of the block house, and the officers and crew returned to the ship.

The batteries were opened from the Decatur, grape, cannister and round shot poured upon the Indians in such quantities that the main body of them retreated. After nightfall, shell and shot were thrown wherever any sign of Indians appeared; by 10 P. M. all was quiet. It is impossible to ascertain the number engaged in the attack. There are various rumors from which we gather: The Indians were from 700 to 900 strong. It is also rumored that the Indians had 35 killed and 6 wounded. On the side of the whites only 2 were killed, both civilians.

The Indians shot too high. The bullets whistled over the heads of our forces. An attack upon Steilacoom, as a short time before the steamer sailed, an express came into the garrison with information that the Indians had attacked some whites about five miles from the garrison.

The injury to the Decatur has been repaid and she is now in good condition. All well on board the Decatur and active when the Republic left Zeatle.

A later dispatch says a second attack from the Indians was apprehended. Gov. Stevens had arrived at Olympia and issued a proclamation calling for six companies of volunteers.

A *Tribune* correspondent telegraphs from Washington: The statement is wholly unfounded that the British Government ever made any distinct or even qualified apology for violating our neutrality laws.

Resolutions to this effect were signed by all of the members, and a call to be issued for a grand ratification meeting.

Fifty-eight persons were present and no dissenting voice.

Washington News.

NEW YORK, Feb. 28.

The *Post* of this evening has the following dispatch:

Washington, 28th.—Mr. Marcy's final despatch to Mr. Buchanan, of Dec. 28th, is contained in the documents sent to the Senate this morning. It demands explicitly of the British Govern't the recall of Mr. Crampton, the British Minister resident at Washington. Mr. Marcy writes his conviction with reference to that officer, that the enlistment has rendered him an unacceptable representative of Her Brittanic Majesty's Government, and you are directed by the President to ask her Majesty's Government to recall him. Mr. Marcy also asks the recall of consuls Barclay, at New York; Rowcroft, at Cincinnati; and Matthews, at Philadelphia. In reference to the former, he says the improper conduct of Mr. Barclay in the case of the bark Maury has justly given offence to the commercial community with which he resides, and with which he has official connection.

From Texas.

The New Orleans *Picayune* has accounts from Galveston to the 14th instant. The weather in Texas was cold and unseasonable. The wife of Mr. Wilson, of Grimes County, froze to death on the night of the 5th instant. She was returning home from a visit to a neighbor on horseback; is supposed to have fallen from the animal, and being stunned was unable to rise. A man named John Crosby was also frozen to death on a prairie in Robertson County.

The Legislature adjourned on the 4th, after a session of ninety-two days. In noticing the adjournment, the Austin State *Times* remarks that "the passage of the public debt bill is the sole measure of importance acted upon by them."

Immigration continued to pour into Texas in a steady stream, and especially into Western Texas. A gentleman who has recently returned from Mississippi overland to Lavaca says that he enumerated as many as five thousand slaves on the road, long trains of wagons and many families, all bound for the West.

The Picayune learns from a gentleman coming direct from Austin that at the moment he left, that city was in a state of the highest excitement, caused by an attempt to override the law by parties charged with having been concerned in the recent burning of the Auditor's office.

Hynes, who was some time ago arrested on the charge of having committed the offence, offered to turn State's evidence, and, in his subsequent revelations, implicated Blankenship and Lewis as parties to the deed. The Sheriff of Austin thereupon attempted to arrest the former at Waco, but was prevented by the citizens of that place, who, however, pledged themselves that he should make his appearance in Austin at the appointed time to answer the charge.—Lewis's appearance was in like manner guarantied.

On Sunday evening, the 10th, (Monday having been fixed as the day for examination,) Lewis rode into town accompained by about twenty of his friends, all heavily armed with double-barrelled guns, revolvers, and bowie knives. On the following morning Blankenship also came into the capital, in like manner, escorted by some thirty of his friends, similary, armed, and publicly declaring that all the Sheriffs in Texas could not arrest him, although they professed themselves willing that he should undergo an examination before a magistrate. Great excitement was caused by their conduct, and numbers of the inhabitants were arming to aid in carrying the law into effect, if they should be needed. The Sheriff himself was subpenaing a posse of fifty men and arming them to enable him to arrest Blankenship, which it was understood he was determined and would be able to effect.

Fugitives in Canada.

It is now estimated that 30,000 fugitives are already in Canada chiefly of the class of able-bodied men and woman. These, at home, would average in value $1000, or at least $800, summing up $24,000,000—the absolute loss to the capital chiefly of four Southern States But, added to this, there are still remaining in the Northern States, as servants, &c., about six thousand negroes, who, not fearing pursuit, have not crossed into Canada. These, at $1000 each—a low figure for first class slaves, as the runaways almost uniformly are—would add $6,000,000 more—making the aggregate at this time, at the lowest calculation, $30,000,000 which slave owners have to lose, and for which they have no resort.

Now, the rate of escapage to Canada averages twenty persons, taking the figures of 1855 as a basis. This would give to 1856, 7300 persons—which, at $800 each, would add $5,840,000 per year the four States named are to suffer in direct loss.

SPECIE EXPORTS.—The exports of specie from New York to foreign ports for the week ending the 23d inst., were $740,730; making a total since January 1st, 1856, of $1,304,177. Same time 1855, $2,250,771; same time 1854, $2,347,589; same time 1853, $1,665,699; same time 1852, $6,419,499.

BURLINGTON, IOWA.—The Burlington *Telegraph* says that contracts for buildings to be erected in that city during the present year, have already been entered into, involving the expenditure of half a million of dollars.

PROTEST AGAINST RECIPROCITY EXTENSION.—In the Canadian Parliament, on the 19th inst., a protest was presented from the Quebec Board of Trade against any extension of reciprocity with the United States.

WHOLESALE DEATH.—It is estimated that, in a single province of China, one million persons have been killed in battle, starved, or executed, since the rebellion commenced.

THOSE HORRID FOREIGNERS.—An exclusively "native" comic paper was started in this city a short time ago, called "Young Sam." Yesterday three gentlemen, *all of them Englishmen*, through their assignee, sued the proprietors of "Young Sam" for literary services in editing this specimen of an unadulterated Know Nothing sheet.—*N. Y. Tribune, 20th.*

WHEN IS A MARRIAGE CONSUMMATED?—A novel case came up before Judge Bacon last week, the circumstances of which are as follows: A constable had levied upon the property of a man and sold it. The owner claimed that he was a married man and the property was exempt by law, and sued the constable for damages. On the trial it was shown that the marriage ceremony was performed about two hours before the levy was made, and the court decided that the marriage had not yet been consummated, and the complainant was not a married man within the meaning of the statute. The levy was therefore held to be good.—*Syracuse Standard.*

To Messrs. M. D. OGDEN, E. B. McCAGG, H. W. THOMAS, C. H. J. MILLER, J. V. Z. BLANEY, and others.

GENTLEMEN—I have received your very flattering invitation, requesting the use of my name, for Alderman of the Ninth Ward. I did not expect to be called out at this time; but, if you believe, from my course in the City Council heretofore, that it will be to the interest of the Ward, and the city in general, you are at liberty to use my name for said office, without distinction of party; for, I believe that politics should never enter our Municipal Election, as it is altogether a local matter, and exclusively confined to the city.

Very respectfully, yours, &c.,

FIRE KING SAFES AGAIN TRIUMPHANT. Read the following:—
GREAT FIRE. Toledo, Ohio, February 12, 1856.
The Duryee & Forsyth Manufacturing Company:
GENTLEMEN:—On the morning of the 23d ult. a fire broke out in our block, composed of nine buildings, of which ours is the center. Our Safe, which was one of Duryee & Forsyth's manufacture, Rochester, N. Y., stood about the middle of our store, and was exposed to the most severe fire we have ever witnessed, from 1 until 9½ o'clock in the morning. So intense was the heat that our stove, which was large and heavy one, and which stood within about four feet of the Safe, was almost entirely melted down. When we had seen that, we came to the conclusion that the contents of the Safe were not preserved; but on opening it we were very agreeably surprised to find them all in a perfect state of preservation. Respectfully yours, N. W. EDDY & CO., Merchant Tailor.

THE ONLY MEDAL AWARDED BY THE JURY —OF— THE NEW YORK EXHIBITION To English or Foreign Sauce Manufacturers, has been obtained, amongst numerous competitors, by LEA & PERRINS, for their Worcestershire Sauce. Whereby further testimony is afforded of its being the best Sauce extant.
THE CELEBRITY OF THIS SAUCE HAS extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged. In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach perfectly to digest the food. On the Continent of Europe these qualities have been testified to, by a gentleman who writes to Lea & Perrins (his tour I have just completed through Spain and Portugal) and believe I owe my present state of health to its use. Your Sauce is stomachic, and, I think, medicine; and I may say there is nothing in a traveler's baggage half the comfort, at least in these countries, as your Sauce." In India also, where it is found at the table of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in this way:—"Tell Lea & Perrins that their Sauce is highly esteemed in India, and that it is, in my opinion, the most palatable as well as the most wholesome Sauce made." This Sauce is suitable for every variety of dish, and the universal demand which its excellence has produced has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the metallic capsule, or patent glass stopper of the bottle, and on the labels and wrappers.

COUSIN'S ELEMENTS OF PSYCHOLOGY.
PUBLISHED BY S. C. GRIGGS & Co.,
ELEMENTS OF PSYCHOLOGY; included in a Critical Examination of Locke's Essay on the Human Understanding, and in additional Pieces. BY VICTOR COUSIN. Translated from the French, with an Introduction and Notes, by Caleb S. Henry, D.D. Fourth edition. Revised and enlarged. One volume, large 12mo, 568 pages. Price $1.25.

The Publishers have the pleasure of bringing out, in a handsome form, a new edition of this celebrated work, revised according to the author's last corrections, and greatly improved by a number of important additions.

Of the character and value of the work it is scarcely necessary to speak. Sir William Hamilton, who stands confessedly at the head of living British philosophers, pronouncing Cousin "the first philosopher of France," and declares that "to him belongs the honor of doing more himself, and contributing more to what has been done by others, in furtherance of an enlightened philosophy, than any other living individual in France or in Europe." The Edinburgh Review, not long since, speaks of Cousin as "a writer whose lofty and powerful periods have touched the chords of modern society, and thrilled through the minds of thousands in almost every quarter of the civilized world." The Examination of Locke's Essay, which makes up the principal part of this volume, is one of the best of Cousin's productions. It has been the subject of special eulogium by the most eminent authorities (including those just referred to), and is acknowledged to be an unrivaled specimen of philosophical criticism—saying, according to Mr. Morell, the learned historian of Philosophy in the nineteenth century, "all that ever need be said about the Essay on the Human Understanding," and with a "power of expression and perfect fitness of style," no less remarkable than the admirable clearness of analysis. And, finally, the work is to be commended as by far the ablest, the clearest and most popular refutation of the sensualistic Philosophy that has ever been put out, establishing the foundations of Morality and Religion against the destructive principles of Sensualism. The translation by the Rev. Dr. Henry breathes the very spirit of the original, and is imbued with all the enthusiasm of Cousin. Copies sent by mail, for examination, post paid, on receipt of the price named. Address the publishers, feb27 S. C. GRIGGS & Co., 111 Lake street.

J. H. THOMPSON'S POMADA OPTIME AND LIQUID HAIR-DYE.—J. H. Thompson, author of "Anatomy of the Skin," "Diseases of the Hair and Skin," &c., begs to call the attention of the American people to the above celebrated articles for the toilet.

THE POMADA OPTIME

is an entirely new preparation for the Hair. It contains no one article used by any other manufacturer of any compound for the hair. It contains no coloring matter or essential oils. Its splendid perfume is obtained by digesting the flowers of the Rose, Verbena, and Heliotrope, with the articles of which the Pomada is composed. By this process it will retain its magnificent scent any length of time in any climate. As an article of utility it has no rival. It will keep the skin entirely free from any unhealthy accumulation or dandruff. It excites the oily and coloring secretions of the hair, and will restore and keep them in a healthy condition—thus preventing their falling off or turning prematurely grey. Ladies using this Pomada require to use no bonnet-preserver; for, if the hair is thoroughly cleansed before applying the Pomada, the hand will not soil the most delicate fabric with which it may come in contact.

TESTIMONY OF MISS LOUISA PYNE.

"New York, Sept. 26, 1854.

"Mr. J. H. Thompson—Dear Sir: Please forward me six jars of Pomada Optime, same as you last sent. Let it be packed for traveling. I find my hair has much improved since using your preparation, and has entirely ceased falling out. If the present improvement continues, I shall pronounce your Pomada one of the most valuable and delightful compounds for the hair, and not only continue to use it myself, but recommend it to my friends.

"I am, dear sir, yours truly,
"LOUISA PYNE."

J. H. THOMPSON'S INSTANTANEOUS LIQUID HAIR DYE.

This dye is, without any exception, the best ever manufactured. Nothing sold in America or Europe, of any other make, will bear the least comparison with it. The proprietor publicly guarantees that it will dye red or grey hair to any shade of brown or black in one minute, and that so long as the hair remains upon the head it will not fade or change color. It differs from all other dyes in its effect upon the fibres of the hair, as, instead of making the hair harsh, it renders the most stubborn, pliant and tractable. It is beautifully scented with violet, and will not stain the skin. The following is the

A HARMLESS AGUE REMEDY IS A PUBLIC BENEFACTION!—See what the PRESIDENT of the PHARMACEUTICAL SOCIETY of MISSOURI says of RHODES' FEVER AND AGUE CURE, or Antidote to Malaria:

St. Louis, Mo., Nov. 30, 1855.

Having noticed the certificate of chemical analysis given by the celebrated chemist, Dr. J. R. Chilton, of New York City, in favor of Rhodes' Fever and Ague Cure, that it contains no Quinine, Arsenic, Mercury or Strychnine, and having received numerous applications for it, I was induced to send to Mr. Rhodes for the medicine. Since then I have disposed of a large quantity, mostly to residents of this city, who have invariably been cured by it, and to whom I can, therefore, satisfied in recommending it to be what the proprietor represents.

WILLIAM W. PECK .... EDITOR.

Friday Morning .... Feb. 29, 1856

A Border Ruffian Plying his Trade in Chicago.

Yesterday morning, about 11 o'clock, the Border Ruffian party in this city opened the ball. Pierce's District Attorney, THOMAS HOYNE, leading off in the disgraceful game of attempting to intimidate Anti-Nebraska editors. As MR. CHARLES L. WILSON, one of the editors of the Chicago *Journal*, was passing up Clark street, he was met in front of the Tremont buildings by HOYNE, when the latter commenced abusing Mr. WILSON, threatening to pull his nose. Mr. W. advised this doughty "fight and crush" champion of Douglas's of the danger of attempting anything of the sort, whereupon Hoyne struck Mr. W. in the face. Of course a fight ensued, the result of which must have been highly unsatisfactory to Hoyne, who found that he had "caught a Tartar" and a good drubbing into the bargain. The editor gave the District Attorney decidedly the worst of the bargain so hastily *struck*. We regret for the sake of our friends of the State Bank, that Mr. Wilson should have so unceremoniously landed the U. S. District Attorney into their banking room, through the large plate-glass window; but we think that if Charlie had thought a moment he would not have made a deposit of such depreciated currency. As soon as the circumstances rendered locomotion possible, the U. S. District Attorney found a change of location decidedly advantageous, and the sooner made the better. Mr. Wilson waited upon the battle ground until his assailant got out of sight, and then proceeded as calmly on his way as though nothing had happened.

We here give the *Journal's* version of the affair:

BORDER RUFFIANISM ARRIVED!—A U. S. LAW OFFICER LEADING OFF.

We duly chronicle the first demonstration of Border Ruffianism in our city, led by one Thos. Hoyne, by the grace of Franklin Pierce, U. S. District Attorney for the Northern District of Illinois.

We had heard for some time of the longings of this Government Official to attempt to thrash some anti-Nebraska editor, and that fortune has fallen to our lot.

While walking on Clark street this morning, we were accosted by Mr. Hoyne and threatened with personal chastisement, if we again used his name in the Journal. We replied that we were not to be intimidated. Whereupon the valiant hero struck us on the face.

His friends clearly had a right to claim the first blood for Hoyne! What followed Mr. H. is at liberty to describe in his next Nebraska speech.

Meanwhile, we suppose his time will be occupied in looking up some other Anti-Nebraska editor to thrash, unless he is perfectly satisfied with us in the premises.

It is presumable that Mr. Hoyne is quite content with having thoroughly disgraced himself by getting up a street broil, as well as with his experience in attempting to punish an Anti-Nebraska editor.

We are informed that the cause of Mr. HOYNE's attack upon Mr. WILSON was because the latter had printed the latter's rabid Abolition speeches of 1848, side by side with his rabid pro-slavery speeches in 1856.

Council Proceedings.
SPECIAL SESSION.

THURSDAY, February 28, 1856,
3 o'clock, P. M.

Council met—Mayor in the chair.

Present, Aldermen Long, Hough, Allen, Church, Fletcher, Outhet, Ward, Holden, Wayman, Granger, and Howe.

Minutes of the proceedings of last meeting read and approved.

Business was taken up where left off at the last meeting.

The order offered by Ald. Hough at the last meeting was next in order. The order was for filling up Lake street. The total amount of assessment for this work was $2,941 32. The estimate is predicated upon 29 cents per cubic yard.

Ald. Granger moved to recommit the whole thing to Committee on Streets and Alleys, S. D., because the report and orders were not in proper form. Carried.

Ald. Fletcher, from Committee on Gas Lights, reported an ordinance providing for the levying of taxes to pay the cost of erecting lamp posts and lighting the city. Passed.

Also, that the Gas Company keep an account of the street lamps not lighted, and deduct from amount of bills rendered accordingly. The report states that the amount thus deducted in January last is $148 80. The Com. asked to be discharged from further consideration of the subject. Granted, and report concurred in.

Also in favor of erecting additional gas lamps on West Madison street as far West as the gas pipes are laid. Concurred in.

Ald. Fletcher, from Special Committee, to whom was referred the matter of planking State street, Ringgold Place and Cottage Grove avenue, reported adverse to granting petition of remonstrators against the same, and recommending that planking be sixteen feet wide instead of twenty-four feet wide. Concurred in.

Ald. Hough, from Special Committee, to whom was referred the matter of certain charges made against Michael Gavin, Pound Master of the North Division, reported that some of the horses impounded by him were brought into the city limits through his agency, and recommend that he be paid $18 for his bill of $75. The recommendation was stricken out and the report concurred in.

Ald. Granger, from Special Committee, to whom was referred the matter of the resignation of officer Toenbrock, reported that his present position was through his own fault and recommending that the matter be referred to the Mayor with power to act. Concurred in.

Ald. Granger asked for the passage of an order that the owners of lots in blocks 6, 15 and 14, O. T., be allowed to excavate in front of said lots, for the widening of the river, twelve feet below low water mark, said excavation to be done under the direction of the City Superintendent. Passed.

Ald. Church offered an ordinance providing for the construction of horse railroads, by Messrs. Mason and Phillips, through the same streets named in a previous ordinance provided for said roads.—Passed.

A petition was presented for the extension of the fire limits over frac. sec. 15, addition. After considerable discussion an ordinance complying with the prayer of the petitioners was laid on the table and ordered to be published one week.

Ald. Church offered an order for paying $200 to Messrs. Pinkerton & Co., (Police Agency) for services rendered the city. Referred to committee on Police.

Ald. Holden offered an order for paying Rev. Mr. Cady $50 for teaching the boys in the Reform School singing. Passed.

On motion, the Council adjourned.

A RUN ON THE BANK.—We understand there was a run on one of the Clark-street Banks this morning. It was promptly checked by a "small" *Government* deposit.—*Journal.*

Thursday Evening .... Feb. 28, 1856.

MONETARY AND FINANCIAL.

☞ The New York Weekly Bank Statement shows a continued expansion of loans, which are now within $[illegible] of the highest point reached in August of last year. The specie shows a small increase. The general expectation of the street was that there would be a decrease. The deposits have increased about two millions, although nominally they are smaller, as will be seen by the annexed statement:

Deposits week previous	$[illegible]
Less average clearings	25,744,694
Actual deposits	[illegible]
Deposits this week	[illegible]
Less average clearings	[illegible]
Actual deposits	[illegible]

The country balances are increasing, and as on most of them the city banks pay a small interest, loans are forced out in order to make them pay.—Tribune, 26th.

I propose to issue Thirty Thousand Shares of Stock, at One Dollar each, and each subscriber will be furnished with certificates of stock at the time the shares are paid for. No STOCK SOLD TO BOYS. The funds received from sales will be deposited with the President of one of the Benevolent Societies here, to be held by him till the property is delivered to the stockholders. When all the stock shall have been disposed of, I shall present to the officer holding the funds, a correct account of the goods, expenses of printing, &c., and also a bill for my services at $100 per month, upon payment of which account the goods are to be delivered to said officer, and by him to the stockholders. The goods are billed by me at their actual cost here. All additions to the original stock have been purchased at a very small advance, the expenses of printing, disposing of the stock and other incidentals, shall be kept down as low as possible, I being determined to make it what it purports to be—a Benefit to the Poor. The funds left in the hands of the officer after my account being settled are to be distributed among the different Benevolent Societies in this city, as may be decided by three persons, chosen from the stockholders. Now, Ladies and Gentlemen, after stating the above case to you, in conclusion I wish it to be distinctly understood that this is no humbug scheme, got up for the purpose of swindling people, nor a lottery, with this form assumed to evade the law, but a fair business transaction, ready at all times for any person's inspection, and that it shall be carried out in every particular to the letter. I shall not pretend to dictate to the stockholders, after the property is delivered to them, in relation to the manner of their disposing of said property, that matter being left entirely to them.

My Office is at the Medical Depot of Blair & Kelly, 93 Dearborn street, where I can be seen, and all necessary explanations will be made. A large portion of the stock can be seen at Thompson & Johnson, corner of Lake and Dearborn sts.

E. G. MATHER.

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

MR. KENNEDY, OF ROXBURY, HAS discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor, it has to start. There are no ifs nor ands, hums nor ha's about it suiting some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure. It gives great relief in catarrh and dizziness. Some who have been costive for years, have taken and been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it. On the contrary when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that man ever listened to. No change of diet is necessary—eat the best you can get. I have likewise an herb, which, when simmered in sweet oil, dissolves Scrofulous swelling of the neck and under the ears. Price 25 cents.

DIRECTIONS FOR USE.—Adult, one table-spoonful per day. Children over eight years, desert-spoonful; directions can be made applicable to all constitutions, taken enough to operate on the bowels twice a day.

MR. KENNEDY gives personal attendance in bad cases of Scrofula.

Wholesale Dealers in Chicago.—Brinckerhoff & Fenton, J. H. Reed & Co., Bay & Baldwin, F. Scammon & Co., Sawyer, Paige & Co., Barclay & Brother.

Price $1. Manufactured by DONALD KENNEDY, 120 Warren street, Roxbury.

A liberal discount made to those who buy to sell again.

Apothecaries, &c., who would like to act as agents will please send in their orders.

Mrs. Caroline Lee Hentz.

WE HAVE IN PRESS, AND SHALL publish on the 28th of February, one of the most brilliant and fascinating Works which has ever been published in this country. It is from the gifted and elegant pen of one of America's choicest writers—Mrs. CAROLINE LEE HENTZ—a lady who needs no flourish of trumpets to herald her fame, for she has established a world-wide reputation years agone. We may say, however, that in this new Work she has not only sustained her previous high reputation, but she has achieved a victory, and reached a literary standpoint far in advance of any of her previous efforts. So say all who have examined the manuscript, and we doubt not that this will be the verdict of the critics, when the Book shall appear. The scenes are drawn in part from fashionable life in Boston and New York.

ERNEST LINWOOD,

is the euphonious title which Mrs. HENTZ has chosen for this new and charming emanation of her genius.

It will be comprised in a handsome 12mo. volume of about 450 pages, price $1,25, with our usual discount to the trade.

Booksellers are most respectfully requested to forward their orders at an early day.

Said Farm has about 130 acres, under the plough, and the balance in meadow and pasture lands, with 30 acres of timber. It has a fine stream of never failing water, running directly through, and several fine springs of water, equal to one in every field.

There is a good farm house, and two good barns and first rate fences made of oak rails upon the farm. The Society is as good as can be found. There is a good school within half a mile, and two churches within two miles.

It is said by those best acquainted in the neighborhood to be one of the best farms in Racine County.

There is no exaggeration in the statements here made, and there is not the least doubt about its being one of the most profitable investments in Wisconsin.

The terms can be made quite easy, with a small payment in advance, and balance for nine years, if desired.

Any person wishing to see the farm can get further information, by calling on Clark & Pickering, 8 Wells street, Chicago; or H. Warner & Co., 121 Main street, Racine.

PRIOR TO THE COMPLETION OF THE Railroad from Chicago to the interior of the State, the trade of Central Illinois was monopolized by St. Louis. To attract this trade, which, by force of custom, St. Louis still retains, the business men of Chicago must make themselves known, and there is no advertising medium so good as the

R. R. R.
LIFE AND DEATH;
—THE—
Mysteries of Disease laid open to the People.
Health is the Principle of Life; Disease is the Principle of Death.

THE R. R. R. REMEDIES POSSESS THE GREAT POWER TO SECURE TO THE HUMAN SYSTEM HEALTH AND LONG LIFE, AND TO FREE THE HUMAN FAMILY FROM PAINS, ACHES, AND ALL BODILY INFIRMITIES.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE BY THE R. R. R.'S

Radway's Ready Relief,

Is to be used in all cases where there is pain. The moment it is applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spasms, burns, scalds, &c., quicker than Morphine, Chloroform, Veratrine, or any other anodyne or remedy that has ever been used by medical men.

It is safer than these dangerous remedies. The public will bear in mind that Chloroform, Morphine, Opium, &c., only stills the pain by stupifying the senses, so that the perceptive faculties lose the power of feeling, and that after the influence of these narcotics have passed from the system—the pain again breaks forth with its terrible pangs, with renewed violence.

Radway's Ready Relief stops the pain, and removes the cause of the disease that occasions it; it infuses new life into the weak and diseased parts. It braces up the nerves, and establishes in the system a reaction of health and strength, in place of pain, weakness and disease.

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where there is inflammation or congestion, it will instantly scatter the congested blood, equalize the circulation, and in a few minutes the most excruciating pains are removed. This may be shown in cases of Lumbago, Gout and Rheumatism, in their most terrible forms; where an application of Radway's Ready Relief will restore the patient to ease and comfort.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his recovery—Timely use of R. R. R.—A wonderful Cure.

LETTER FROM ISAAC HUDDLESTONE.

Rapide Parish, La., June 10th, 1855.

Messrs. Radway & Co.—Radway's Ready Relief has cured Peter May of Rheumatism, when there was no hope of his ever recovering. I heard of his situation, and sent for him. His right arm and leg was all perished, he had no use of them at all; but by the use of your medicine, in two months he was carrying the mail from Cherryville to Baer's Ferry. I objected. He said he must do something for a living. It has been fourteen months since he was cured. He is now well, and is working on his farm, and the whole cost of his cure for your medicine was five dollars.

ISAAC HUDDLESTONE.

Radway's Regulators.

We here direct the attention of the public to our newly discovered remedy—RADWAY'S REGULATORS; they possess the great curative powers of a Purgative, cathartic, aperient, anodyne, antidyspeptic, corrector and Regulator of the system. They are in fact the only perfect purgative or cathartic remedy that has ever been discovered or given to the world.

Radway's Regulators will answer a better purpose than Calomel or Mercury, without entailing on the system the terrible injuries of these baneful drugs.

They are in the form of Pills, elegantly coated with gum, perfectly tasteless, and can be taken without sickening or nauseating the patient. They are to be used in all cases when the system is OUT OF ORDER, or under the influence of disease. One or two doses of Radway's Regulators has frequently checked the progress of the most terrible diseases and restored the system to health and regularity.

They establish new and improved principles of medicine, and secure the great and important power of regulating to a healthy, natural and harmonious action, each and every organ in the body. This great controlling power has never formed any part of the properties of the popular Cathartic, Vegetable or Indian Purgative Pills, that have ever been in use.

Radway's Regulators rid the system from disease and restore the human body to health, on an entirely different principle to the weakening, sickening, and griping method of the common cathartic and purgative pills.

One or two of Radway's Regulators will remove the cause that occasional pain or sickness, or an irregular or unnatural action or condition of the organs of the body, quicker, more effectual, and with less trouble to the patient than six or ten of the common cathartic or purgative pills. The moment Radway's Regulators are taken into the system afflicted with disease, their regulating efficacy begins; they search out the elements of disease wherever it may be seated; they act upon the whole surface of the intestines and bowels attracting the foul and morbid humors from the blood, glands, secreting vessels, and expelling these seeds of disease from the body, restoring a healthy and regular action to the Liver, Bowels, Pancreas, Heart, Kidneys, Bladder, Skin, and all other Viscera.

THE BOWELS.

All of the common pills of the day, called Vegetable, Indian, Cathartic, &c., claim that they cure disease by purging from the bowels. This is as far as they go—they act upon the bowels by irritating the mucuous membrane, and thus obtain an evacuation in the same manner as the bowels are moved by eating something that disagrees with the system. This is truly an unnatural method of restoring the system to health, by swallowing pills that disagree with and irritates it. Those who have taken these common pills are well aware of the weak and debilitated condition their systems are left in. After the securing operation of these drastic purgatives is over, the bowels are sore and feeble, and again become costive and bound up. Hence arise dyspepsia and a host of diseases. Radway's Regulators never leave the bowels in a costive condition, or occasion pain or weakness in their operation.

No. 1

Diseases and complaints caused by Exposure and Atmospherical Changes, over which Radway's Ready Relief and Radway's Regulators possess the most remarkable curative powers, and which will readily yield to the R. R. treatment.

COLDS AND FEVERS.

When the system is first seized with a sudden cold, or a fever sets in, a dose of from three to six of Radway's Regulators should be taken—this is all the medicine, at this stage of the disease that is required. In a few hours the system will be restored to sound health. But if the cold and fever is neglected, and coughs, headaches, chills, pains and aches in the limbs, joints, muscles, bones, side and back, [illegible]

Will leave Buffalo—Wednesdays and Saturdays.
Will leave Detroit—Tuesdays and Fridays.

The steamers are all new, of the largest class, being about 2000 tons each, commanded and officered throughout by men of large experience and capability, and fitted up and furnished for the convenience of passengers in a style of comfort and luxury entirely unequalled, and are in all respects considered the most desirable steamers that float upon the waters of the United States.

For the transportation of Freight, the Line will surpass anything ever before offered to the public, having arrangements with parties between Boston and New York, and all points west of Buffalo to St. Louis, which will enable them to forward goods and merchandise with greater dispatch than has ever yet been attained.

Shippers of merchandise from the East should mark packages to the care of C. L. Seymour, Buffalo; merchandise from the West, should be to the care of John Hosmer, Agent, Detroit.

C. B. SWAIN, Agent.
